Forogh from Iran told SAT-7 PARS. **"But what is helping me a lot are the teachings I learned from you. This is very valuable to me because in every single moment that I am living my daily life, the lessons come to my mind. I remember that even if the electricity goes out for six hours one day, at any other time, I wouldn't have been able to endure it at all. This shows me that this is truly the work of the Lord in my life, and I thank Him for it."**
